EDUCATION

FAST NUCES

Bachelor of Software Engineering

Peshawar, KP

Aug. 2022 – June 2026

Concordia College

FSc. Pre-Engineering

Nowshera, KP

Sept. 2020 – May 2022

EXPERIENCE

Technical Content Writer

Syntax Scenarios

Sept. 2024 – Present

Remote - Peshawar

- Wrote six articles on different topics in Python and Mojo.
- Created nine sets of scenario-based questions for C, covering basic programming concepts from operators to structures.
- Developed four sets of scenario-based questions for C++ and am working to cover the full C++ course.
- Syntax Scenario Profile: [Syntax Scenarios](#)

Co-Lead, Outreach Team

Zindigi Prize

Oct. 2023 – Sept. 2024

Peshawar, KP

- Co-led the outreach team for Zindigi Prize, a society aimed at helping startups pitch their ideas and get support.
- Organized information sessions, coordinated guest speakers, and managed event logistics to explain Zindigi Prize and encourage startups to participate.
- Collaborated with the team to plan outreach activities, handle communications, and ensure the smooth running of events.

ACHIEVEMENTS

Bronze Medal

- Awarded a bronze medal for securing third position in the fourth semester of Software Engineering.

Dean's List of Honour

- Inscribed in the Dean's List of Honour for excellent academic achievements in Spring 2023.
- Inscribed in the Dean's List of Honour for excellent academic achievements in Fall 2023.
- Inscribed in the Dean's List of Honour for excellent academic achievements in Spring 2024.
- Inscribed in the Dean's List of Honour for excellent academic achievements in Fall 2024.
- Inscribed in the Dean's List of Honour for excellent academic achievements in Spring 2025.

PROJECTS

Flexi | *HTML, CSS, JavaScript, Python (Django), SQLite, BeautifulSoup*

Nov. 2024

- Developed Flexi as a team project with two other teammates, a simple web app that combines the features of two separate apps used by university students: Google Classroom for accessing classroom materials, viewing lectures, and announcements, and Flex for checking attendance and marks.
- Provided students with the ability to view timetable, attendance, access learning resources, and manage tasks.
- Enabled teachers to mark attendance, assign grades, upload learning resources, and view their timetable.
- Designed the frontend using HTML and CSS, with JavaScript for event handling. Used Python (Django) for backend development, SQLite for database management, and BeautifulSoup to scrape teacher data from the university website.

ClickNBuild | *HTML, CSS, JavaScript, PHP, MySQL*

Feb. 2025 – Present

- ClickNBuild is a startup web application designed to connect clients looking to renovate or build houses, apartments, etc., with builders who can bid on their projects.
- Collaborating with two teammates to develop the app, using HTML, CSS, and JavaScript for the frontend, Python (Flask) for the backend, and MySQL for database management.
- Developed and hosted an initial prototype version accessible at <https://dilawar123.pythonanywhere.com/>
- Currently in development with ongoing work to fully implement all features.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL, HTML/CSS, JavaScript, PHP

Developer Tools: Git, VS Code, Android Studio, PyCharm, IntelliJ

Web Front-End Development: HTML, CSS, JavaScript

Web Back-End Development: PHP, Flask, Django

Android Developement: Java(for Android apps)
